DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-8, 12-14, drawn to multiplex communications combining or distributing information via code word channels using multiple access techniques, classified in class 370, subclass 335.

Group 2, claim(s) 9-11, 15-16, drawn to pulse or digital communications spread spectrum correlation-type receiver, classified in class 375, subclass 150.

Inventions claims group 1 of CDMA coded preamble signature and claims group 2 of CDMA signature energy filter match are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the CDMA preamble signature coding for transmission and detection does not require an energy

calculation match for detection. The subcombination has separate utility such as methods of signature verification.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

A telephone call was made to Gerald Halt (Reg. No. 37633) on 3/22/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.
